Deb,

Apologies for my delay on this. I appreciate your outreach and coordination on both matters.

For RIDEM, I would like to appoint:

- 1) Matt Destefano, Deputy Chief, as the lead on the PFC group.
- 2) Terry Gray, Associate Director, as the POC on E-Enterprise.

I have copied both of them and my assistant Rayna Maguire.

Hope all are doing well this summer. I will be off all next week (just FYI), and do look forward to our next NECOE gathering in Maine.

Best,

Janet

## Ex. 6 - Personal Privacy

Subject: [EXTERNAL] : PFC Working Group and E-Enterprise Points of Contact

Good Morning Commissioners,

I am writing to raise two items with all of you.

The first relates to perfluorinated compounds (PFCs). Given the ever evolving issues with PFCs across the northeast, I would like to create an EPA/State working group to share information and coordinate resource requests. If your state is interested in participating, please send me your designated point of contact (POC). I am going to have Meghan Cassidy, my Superfund Technical Support Section Chief, chair the group and we will have other technical experts sitting in as well.

The second relates to E-Enterprise. As you may know, EPA Regions were asked to designate Regional Coordinators whose job is to serve as an advocate, change agent and educator, and to look for opportunities to advance the objectives of E-Enterprise in modernizing and streamlining our joint business processes. We designated Sheryl Rosner, given her work with the State of Missouri to develop and test an Assistance Gateway for use by local governments and other interested parties. Many of the Regions are designating their planners or PPA/PPG coordinators. It would be helpful for Sheryl to have a POC in each of your states to work with directly.

If you could get back to me by COB July 21<sup>st</sup> on both requests, I would appreciate it.

Thanks...Deb
